Design is an art of storytelling according to Copenhagen duo Iskos-Berlin, and their Dancing Pendant puts that principle into practice. Exquisite yet with a playful twist, the lamp has the look of a dancer's pleated skirt caught flaring-up mid-twirl. A partnership between two of Scandinavia's leading young designers, Boris Berlin and Aleksej Iskos, the studio is committed to sustainability. Dancing Pendant is made from felt, a 100% recycled material produced mainly from used water bottles.

About the Designer

The company works within the fields of industrial, furniture and graphic design. The firm was only established in late 2010, but Boris and Aleksej have been working together for a number of years. In 1987, Boris co-founded Komplot Design, where Aleksej was employed as an assistant for more than 11 years. This long and fruitful cooperation has allowed them to develop a shared philosophy of design.
