For those of us who drink tea, the daily pause to put on the kettle and linger awhile with our thoughts is precious. The Kettle Teapot is intended to slot into your tea drinking daily ritual. Its design is mindful of traditional Oriental cast iron teapots, re-interpreted here in heat-resistant glass. Kettle Teapot is a delight for all the senses - allowing the tea-brewer to feast on visual and aroma of tea. The 'tea egg' is placed in the centre of pot to hold the leaves. Raise the egg by its silicone string for a perfectly brewed cup every time. This new smaller size is made for one cup or two.

## About the Designer

Norm Architects was founded in 2008 by Jonas Bjerre-Poulsen and Kasper Rønn. Norm works within residential architecture, commercial interiors, industrial design, photography, graphics and art direction. The name 'Norm' signifies the importance of drawing inspiration from norms and traditions within the fields of architecture and aesthetics, which have been refined throughout the centuries. Norm makes a virtue of focusing on quality, durability and timelessness. Their objective is to produce design which applies good materials and craftsmanship whilst embodying beauty, traditions, history and most importantly, timelessness.
