Long live the Norm

- Normann Copenhagen presents Norm 06

A self-assembly lamp shade designed by Simon Karkov - Normann Copenhagen presents Norm 06. Maybe we should move away from self-assembly lamp shades, however, we yield to temptation as soon as we saw Simon Karkov's latest idea. Norm 06 is a decorative lamp shade with personality and character that fits our design universe in a perfect way.

Simon Karkov explains: "I have worked on Norm 06 for the last 3-4 year and just like many of my other projects; I had to leave my idea for a while and look at it again a couple of months later. The design is inspired by nature, by the lilies and the water lilies. Norm06 nicely follows the Danish design tradition for lamp shades with its shielding of the bulb and the soft light".

Norm 06 is a sculptural lamp shade with its own expression. It is easy to assemble without the need for any tools or glue. Norm 06 is a good place to start your lamp-puzzle adventure and could - perhaps - be the last in our self assembly series.
